UI Changes

- Remove the AI doubt section from the PI section.
- When entering the Library, open the Library Home Page.
- Rename the PI section.
- Clean up the PI interface and redesign it.
- Move Predictive AIR Rank and AI Accuracy to the Test Series tab.
- Add a banner section to the Home Page.
- Reduce the width/size of the Streak section so it takes up less space.
- When the user clicks on PI, change the theme to dark green and apply the same theme to the sidebar.
- When the user clicks on Profile tiles, open the selected profile as a separate page.
